MAYSVILLE, KY., WEDNESDAY, JULY 17, 1901.

NUMBER 200.

STRIKE TO BE SETTLED

Amalgamated and Combine Officials
Soon to Meet In Conference.

REPORT CURRENT AT HEADQUARTERS

Sympathy Strike Not Likely, According to the Interpretation of an Intimation of President Shaffer—Late Developments.

Pittsburg July 16.—All the plants closed Monday are shut down tight and matters about the Painter mill, Lindsay and McCutcheon, Clark's Solar Iron works, the Monongahela and Star tin plate plants are quiet. It was stated that Slater's mill was in partial operation, but the only men at work were a few Hungarians who were cleaning up about the yards. Replying to the rumor that the management had brought a strike breaker from Indiana, Assistant General Manager Harper said: "We can break our own strikes." Superintendent Albrecht, encountered a few moments later, said the plant would be running in a few days.

Speculation as to the probable settlement of the strike is active in all circles, and among business men and manufacturers the consensus of opinion is that the combine officials and Amalgamated officials will get together before long and adjust the differences. Some of the manufacturers were emphatic in stating that it would be arranged within 48 hours, yet he could give no positive information of any movement on foot to start negotiations.

In regard to the threat of President Shaffer to call out the workmen in the other union plants of the United States Steel corporation made on Saturday, a significant statement from him that just now he was not in the sympathetic strike business, is looked upon as meaning that for the present the men will be allowed to continue at work.

President Shaffer was cheerful when seen, and said he was entirely satisfied with the situation. He had just been in communication with George Powell, president of the American Tin Plate Workers' Protective and International Association of America at Elwood City, who announced that his organization was in hearty sympathy with the Amalgamated strikers, and the statement was untrue that 3,000 dipper men would continue work. It was reported that these men had decided to continue work because of the lack of co-operation of the Amalgamated association when the scale with the American Tin Plate company was adjusted a year ago. President T. J. Shaffer announced that the strike benefits will go to the idle men from the time of actual inauguration of this strike. The association has a substantial fund, he says, and the men remaining at work in plants outside of the big steel combine will pay liberally to support the strike.

When asked about President Mitchell's statement, President Shaffer said: "I shall not ask the miners to go on such a strike. God help the poor coal miner. He is the best union man in the world and the poorest paid of them all. He has troubles enough of his own and we have no desire to involve him. But while I shall not invite nor solicit a sympathetic strike, the Amalgamated association stands ready at any time to effect an alliance with the United Mine Workers or any other kindred organization, many of whose members are employed by the United States Steel corporation."

The surprising strength of the Amalgamated association at points that were considered the strongholds of the nonunion element is one of the features of the present strike. With the closing of the Monessen hoop mill, every plant of the American Steel Hoop company is tied up with the exception of a small plant at Duncansville, Pa. Word was received at Amalgamated headquarters stating that the men of the Duncansville plant were ready to close down when ordered.

Schwab and Morgan Mum.

New York, July 16.—President Charles S. Schwab of the United States Steel corporation, and other officials of the company now here, declined to publicly discuss the strike situation. Mr. Schwab had been in conference with J. Pierpont Morgan and others, but no hint of their attitude or conclusions has been given to the public. It has been reported that there would be a general conference on the subject here and also there was a movement afoot for the settlement of the strike, but confirmation or denial of these stories could not be obtained at sources of authority.

Freight Handlers Out.

Port Costa, Cal., July 16.—Four hundred men who handle freight in the warehouses here have gone out on strike. Work in all the warehouses

from Nevada to Crockett, as well as

the Crocket Sugar refinery, is at a standstill and shipping is completely tied. They asked for \$3 a day for nine hours and time and a half for all overtime. The warehouses offered a raise of five cents per hour, which would be 30 cents an hour for 10 hours' work, but refused to recognize the men as a union. This offer not meeting with the approval of the men, they walked out.

MINES TIED UP.

Strike of Stationary Firemen Involves Forty Thousand Men.

Wilkesbarre, Pa., July 16.—The strike of the stationary firemen inaugurated Tuesday, has tied up nearly all the mines in the Wyoming valley, and a conservative estimate places the number of men idle at 43,000. This includes the men out in the Scranton district. Only about 800 of these are firemen. The balance is made up of miners, laborers, engineers, breaker boys and machinists employed in and about the collieries. Every mine from Pittston to Naticoke is affected. When the whistles blew for work the firemen refused to report for duty and orders were then issued by the superintendents to close down. The striking firemen thereupon returned to their respective headquarters, where they held meetings and discussed the situation.

President Mullahy estimates that 40,000 men are idle. The coal companies have pressed into service, their foremen and fire bosses, who will be employed as firemen for the time being. This is necessary in order to keep the pumps running and the mines free from water. At some of the collieries hoisting engineers who were asked to work with the men refused and quit their posts. The Delaware and Hudson company has two mines working and the officials say they have enough firemen to keep the pumps running. Several mining concerns gave into the demands of the firemen.

French Minister Shot At.

Paris, July 16.—M. Baudin, minister of public works, was shot at while driving to a cabinet meeting at the Elysee palace. The author of the attempt on the life of M. Baudin was a woman, who was accompanied by a 10-year-old child. She approached M. Baudin's carriage and suddenly drawing a revolver fired at the minister. M. Baudin was not hit and proceeded to the Elysee palace. The woman was arrested and gave her name as Olgeswaska, and said she lived at Nantes. Her husband is a Pole and was an architect at Nice until 1894. Madame Olgeswaska asserts that she had no intention of hitting M. Baudin, but that she fired her revolver in the air to draw attention to an alleged grievance of her husband, who claims he is being deprived of money due him by the ministry of foreign affairs.

Collision On a Bridge.

Parsons, Kan., July 16.—A headend collision between two local freight trains on the Missouri, Kans., & Texas road near Wymark, I. T., killed five men and probably fatally injured three others. The dead: Joe Morris, Parsons; two unknown tramps; James Levele, head brakeman, Parsons; Frank Fitzgerald, Brakeman. The collision occurred on a bridge over the Arkansas river. There is a sharp curve near the bridge and when the engineer saw the danger, the engines were too close to each other to be stopped. The two engines came together in the middle of the bridge, the bridge collapsed and both engines fell into the river. The two trains caught fire and burned up the bridge as well as the cars.

Officials Clash.

Manilla, July 16.—H. Phelps Whitmarsh, governor of Benguet province, who was recently ordered to Manilla for investigation of certain charges against him, is writing a statement in his own defense for presentation to the United States commission, denying some and making explanations of others of allegations of him. Whether or not he is exonerated it is considered that it will be difficult for him and Otto Scherer, secretary of the province, together to govern the province successfully, the two officials having clashed.

Gold From the Klondike.

Seattle, Wash., July 16.—Late advices from Dawson under date of June 28, state that the gold shipments to the outside this year have amounted to \$5,000,000 to date. Over \$3,000,000 of this sum went down the Yukon and is going out by way of St. Michael and the balance has gone up the river. The bank of British North America is this year shipping down the Yukon and the Canadian Bank of Commerce is shipping in the opposite direction. These are the only banks doing business in the camp.

London, July 16.—A dispatch from Constantinople says great frauds have been discovered in the Turkish customs. The embezzlements are said to exceed 120,000 pounds sterling. Several of the higher customs officials have been arrested.

TO END THE BOER WAR

Kitchener and the Cape Government Discussing the Best Course.

BRITISH HOPEFUL OF THE OUTCOME.

Cape Parliament Soon to Convene and the Government is Confident of a Working Majority—Future of South Africa.

Cape Town, July 16.—Sir John Gordon Sprigg, in the course of his address before the vigilance committee, expressed the opinion that the aspect of affairs was more hopeful today than at any time since the outbreak of hostilities. Communications were passing between General Lord Kitchener and the Cape government regarding the best course to be taken with the view to bringing the war to a speedy close. Mr. Sprigg was satisfied that such an arrangement would be reached between General Kitchener and the Cape government and that a very considerable improvement might be looked forward to in a short time. He believed that the Cape parliament would meet before the end of October and was confident that the government would have sufficient majority to carry any necessary measures. He said that a customs conference including all the states and colonies of South Africa practically would be called toward the close of the year.

Mr. Sprigg said he was entirely satisfied that as long as Lord Salisbury remained in power there would be no shadow of anything in the nature of going back. The Cape government entirely sympathized with the announced policy of the imperial government. The Cape cabinet had been rendering all possible support to the imperial government, and intended to continue its support with full assurance that the imperial authorities would not vary their policy to wipe out the last vestige of republicanism in South Africa.

England, Mr. Sprigg added, had consulted the Cape cabinet in regard to South Africa's future. The cabinet strongly held the opinion which was shared by the imperial government, that there must be a period of military rule, followed by a crown colony government for the new colonies. The Cape government recommended a large scheme of immigration. Federation must be hurried.

Bryan On Ohio Democracy.

Lincoln, Neb., July 16.—The action of the Ohio Democratic convention receives attention in this week's issue of *The Commoner*. Mr. Bryan criticizes the convention for failing to reaffirm the Kansas City platform and for what he regards as the weakness of some of the planks it did adopt. Mr. Bryan insists that the convention made a mistake in making himself (Bryan) an issue, saying he is not a candidate for any office. The writer declares that the money question is not yet out of politics, and that the convention should have come out for the gold standard or denounced it. He urges the support of the nominees of the convention, and referring to Mr. McLean's candidacy for the senate, says: "Did the leaders ignore the more important question to please those who bolted in 1896 and 1900, or does Mr. McLean want to be left free to affiliate with the Republicans on financial questions in case of his election?"

Battle Between Negroes and Greasers.

Pentford, Tex., July 16.—A pitched battle and wholesale killing occurred between Mexicans and negroes who are working on the new Rock Island extension in New Mexico, 100 miles west of here. The trouble originated in the killing of a Mexican by a negro some weeks ago. The authorities undertook to arrest the assailant, but his friends interfered and they were obliged to withdraw. Afterwards 35 or 40 Mexicans armed themselves with Winchester rifles and went after the negro. A battle took place in which 15 negroes were killed outright and several wounded. The casualties among the Mexicans cannot be learned.

The trouble occurred at Spencer's railroad camp near Liberty, N. M.

Thrown Into Deep Water.

Stillwater, Minn., July 16.—Will Johnson, 16, an employee of a trained animal show, was drowned in Lake St. Croix. A number of the employees went to the lake to bathe. It is announced that one of them named Watkins became enraged at Johnson because the latter was teasing him. Watkins is said to have picked Johnson up and thrown him into a deep part of the lake. The boy could not swim, and was drowned before assistance could reach him. Watkins escaped. Johnson's home was in Bloomington, Ind.

Filipino Murderers Executed.

Manilla, July 16.—The insurgent Gabarro, with 70 men has surrendered to the Crocket Sugar refinery, is at a standstill and shipping is completely tied. They asked for \$3 a day for nine hours and time and a half for all overtime. The warehouses offered a raise of five cents per hour, which would be 30 cents an hour for 10 hours' work, but refused to recognize the men as a union. This offer not meeting with the approval of the men, they walked out.

to the authorities at Legaspi, Albay province. General Aquino, who has been proved to be responsible for the murder of five captive soldiers of the Twelfth United States infantry, has been sentenced to imprisonment for life. Many native murderers have been hanged or imprisoned.

OTHER PEOPLE'S MONEY

ed to Carry on Business of This Firm—A Broker's Admission.

St. Louis, July 16.—Sensational admissions have been made on the stand by Samuel A. Gaylord, senior member of the firm of Gaylord, Blessing & Co., which failed recently. Mr. Gaylord, who is one of the oldest stockbrokers in the city, admitted at the hearing before Bankruptcy Referee Coles that the firm had been practically insolvent for two years and has been doing business on other people's money—on funds secured from local customers. Deals wherein no stock ever changed hands, being a mere matter of bookkeeping, in which the firm never forgot to charge up commissions, margins and interest were admitted by Mr. Gaylord, who also told of the employment of relatives' names and the use of an insane man's name in the accounts. At the time of the failure, they were short \$150,000 in bond, face value, and over 6,000 shares of stocks in New York. It was admitted by the witness that the failure was due to their own speculation, by which they had to win to pay off their indebtedness, estimated to have been something near \$200,000.

Actresses Suicide Together.

London, July 16.—Ida and Edith Yoeland, actresses, 26 and 21 years old respectively, committed suicide together by taking poison in their rooms in London. About noon Edith called their landlady and told the latter she and her sister had taken poison. She asked the landlady to get a cab and put herself and her sister in it and promised they would leave the house without creating a fuss or a scene. Upon going up stairs the landlady found Ida dead. Edith died on the way to the hospital. Ida had been engaged at the Duke of York's theater under the management of Charles Frohman, for three years. Both the women had recently been without engagements and they were bitterly disappointed at failing to secure an expected engagement.

Army Appointments.

Washington, July 16.—The president made the following appointments: Colonel artillery, David H. Kinsler; Lieutenant colonel artillery, George G. Greenough; Golden A. Day; major artillery, Edward Davis, Joseph M. Calliff, Charles W. Hobbs, Claremont L. Best, John C. Hoskins; captain artillery, Samuel A. Kephart, Louis R. Burgess; captain cavalry, Mortimore O. Bigelow; second lieutenant infantry, Jason M. Walling, Norris S. Taton, John K. Sowan; captain Porto Rico provisional infantry, Orval P. Townsend; second lieutenant Porto Rico provisional infantry, Willis C. Metcalf, Emil Huebscher.

Freshened Vegetation.

Kansas City, Mo., July 16.—Rain fell over an area of 80 miles around Kansas City and reports from different parts of the southwest indicate thunderstorms and lower temperature to follow. At Lawrence, Kan., enough rain fell to effectively lay the dust, clear the atmosphere and freshen vegetation, but not enough to do any permanent good. It is the first fall in that vicinity for 26 days. At Ottawa and Wellsville, in the next county west of Lawrence, half an inch of rain fell.

Miners Out.

Wilkesbarre, Pa., July 16.—The 1,500 employees of the Kingston Coal company went on strike in obedience to an order issued by the executive committee of District No. 1, United Mine Workers. The strike was ordered because of a reduction in the wages paid for "yardage" on narrow work in the mines. The company has been paying \$1.50 per yard, but last pay day it is claimed the men were informed of a reduction to \$1 per yard.

Wreck on the Hocking.

Gallipolis, O., July 16.—The Hocking Valley pay train was in a collision with a freight train at Vinton. One man was killed and four were injured. Dead: S. L. Socia, fireman, of Nelsonville. Injured: Paymaster D. E. Lerch, of Columbus; — Lerch, son of the paymaster; James Rafferty, of Waverly, engineer; N. W. Districh, of Waverly, freight brakeman. None of the injured are seriously hurt.

Children Fatally Burned.

Indianapolis, July 16.—Roy Jones, 12, and Bryan Jones, his brother, 4, were fatally burned in a fire which consumed their parents' home at Broad Ripple, a suburb. Their mother was terribly burned in trying to rescue them. The children were starting a fire with coal oil.

CROPS IN THE WEST

Subjected For a Long Spell to Unfavorable Weather Conditions.

WASHINGTON'S OFFICIAL SUMMARY.

Corn as a Whole in the Central States Has Deteriorated Owing to Heat and Drought—Outlook in Other Sections.

Washington, July 16.—The weather bureau's weekly summary of the crop conditions is as follows:

The states of the middle Rocky mountain and Missouri and Mississippi valleys have experienced another, the third consecutive week of extreme heat. The maximum temperature over a large part of these districts daily ranged above 100 during the week, many stations reporting from 100 to 107. With an almost entire absence of rain, the crops in the region named have been subjected to most unfavorable conditions. In the states lying immediately to the eastward of the Mississippi river, very high temperature have also prevailed, but the heat has been less intense and its effect not so serious as in the districts to the westward. On the Atlantic coast very favorable temperature conditions have prevailed with abundant rains, excessive and damaging in portions of the middle and south Atlantic states. On the Pacific coast it has been cool and dry with frost in Washington on the 12th.

The corn crop as a whole in the corn states of the central valleys has materially deteriorated and has sustained serious injury over the western portion of the cornbelt, especially in Missouri, Nebraska, Kansas and Oklahoma. A very large part of the crop is late, however, and this has withstood the trying portions of drought and heat remarkably well, and with early rains, will still make a fair crop. This is particularly applicable in Iowa, Nebraska and portions of Kansas and northern Missouri.

Water Scarce.

Dallas, Texas, July 16.—No rain fell in any part of Texas on Tuesday. There were a few local showers Monday, but it did not reach the Texas cotton region. The hot winds continue. Cotton is suffering severely. Cattlemen in the Panhandle report the small streams dry and the grass range bare in large areas. The scarcity of water is alarming the ranchmen.

Cooling Showers.

Omaha, July 16.—Nebraska and western Iowa received an inch or more of rain. The showers cooled the atmosphere, relieving the extended spell of hot weather and the mercury went down to 68. Liberal rains are reported in the Black Hills.

Millionaire Rogers' Will.

Trenton, N. J., July 16.—Former United States Attorney General Griggs, representing John S. Barklaow and William Pennington, two of three executors of the will of the late Jacob S. Rogers, appeared before Chancellor Magie and offered the will of the deceased for probate in the probate court. Theodore B. Rogers, the third executor named in the will, did not join in the petition. Mr. Griggs stated that several caveats had been filed and the chancellor fixed Sept. 16 for the taking of testimony and the hearing of argument as to why the will should not be probated. Mr. Griggs then presented a petition asking the court to appoint the three executors as administrators to take charge of the estate pending the decision of the probate of the will. The court at once granted the petition.

Three Killed By Lightning.

Newcomerstown, O., July 16.—During a rainstorm a bolt of lightning struck Mrs. Caroline Huff, her daughter, Mrs. Ida Thornton and Mrs. Thornton's babe, killing them instantly. Another daughter and a child were also struck, but the shock did not prove fatal in their case, although both were unconscious for several hours. The women had been out gathering berries, taking the children along. When the rain came up they sought shelter in a straw shed. The lightning tore through the roof and the entire party was struck. The shed collapsed afterwards and the bodies of the dead and injured were brought from the ruins by people who saw the shed go down.

Auburn, N. Y., July 16.—Frank Wennerholm, the Chautauqua county murderer, was put to death by electricity in the prison here. The current was turned on one minute and five seconds, and the man was pronounced dead. When he took his seat in the chair Wennerholm appeared to be on the point of utter collapse. As the strap over the face was put in position, the doomed man tossed his head nervously to one side and uttered a low moan.

EVENING BULLETIN.

DAILY, EXCEPT SUNDAY.
ROSSER & McCARTHY,
Proprietors.

WEDNESDAY, JULY 17, 1901.

THE WEATHER RECORD.

[For the 24 hours ending at 6:30 a. m.]
State of weather..... Clear
Highest temperature..... 102
Lowest temperature..... 69
Mean temperature..... 85
Wind direction..... South
Rainfall (in inches)..... 00
Previously reported this month..... 52
Total for July to date..... 52
July 17th, 10 a. m.—Partly cloudy to-night and Thursday. Probably occasional thunderstorms in central and east portions. Not so warm Thursday.

SOME of the "experts," who are no doubt paid for their opinions by the stock and grain gamblers, announce that the corn crop is being destroyed "at the rate of millions of bushels daily." If heavy rains should set in in the next week or so, these same fellows would shortly be talking about the country's great corn crop.

NO WONDER the Navy Department is making a kick against the action of the thieving steel trust. The department has to pay \$2.26 per pound for crank shafting, when it can be bought in England for 48 cents a pound. Commenting on this, a writer says: "Uncle Sam can't go to England for the said crank shafting because he is using it on the new warships, and the law provides that no foreign material shall go into these ships. Only two plants in this country make the required shafting—the Midvale Steel Company and the Bethlehem Iron Company—both being in the trust. They may have incidentally heard about the law, and are now engaged in the laudable enterprise of shaking the Government down, good and proper. The contractors have complained to the Navy Department. It is the purpose to bring the matter to the attention of Congress and get some modification of the statute that prohibits the use of foreign material in American warships. Then certain forgings of steel could be put on the free list to accommodate the Navy Department—if the Republican majority will stand for it."

VALUE OF SHADE AND FOREST TREES.

A drive through Mason County these burning hot days forces upon the casual observer the terrible destruction that has been wrought to the woodlands during the last decade or two. It's a rare thing now to come across a shady stretch of highway, and the traveler and his horse has to swelter in the boiling rays of the sun along weary miles of road. The writer of this calls to mind a public road that once traversed a long stretch of woodland, with towering beech, oak and poplar trees on every hand; it was delightfully cool the hottest summer day. Now all has been changed. Hardly a tree in this fine piece of woodland has been left. What is true of the section referred to is likewise true of other portions of the county. The forests have largely disappeared—only a small patch of woodland left here and there. The disastrous results from the loss of forest and shade trees is best told by Dr. F. S. Oswald, who calls attention, in Health Culture, to the strange circumstance that while various religious systems inculcate certain practices which are more or less faithfully followed by their adherents, none prohibit the destruction of forests. He says:

Wanton, inconsiderate forest destruction has converted more than 5,000,000 square miles of once fertile regions into deserts. It has robbed earth of many features of a terrestrial paradise, it has

rendered nearly one third of the Eastern hemisphere unfit for human abode. This disappearance of forest luxuries is the main cause of the deterioration of some of the most favored countries of the world. Spain, for instance, was, thanks to her woodlands, at one time the Eden of Southern Europe. Spain, reduced to treelessness, has been the habitation of poverty, retrogression and disease. Sicily, in the old days of its forest wealth and abundance, was the mother of philosophers and athletes, heroes and merchant princes. To-day, sunburnt and treeless, its products are bandits, beggars and vermin. The whole coast region of the Mediterranean has been depleted of forests, and, in consequence, of four-fifths of its population and nine-tenths of its former fertility and productive power. The same results are visible in Asia Minor, Armenia, Mesopotamia, Persia, Hindostan, Portugal and Southern France. It is indeed open to doubt whether all human crimes and follies, taken together, have led to as great a sum of evil as the senseless destruction of forest safeguards against blighting droughts. A land bereft of forests is like an animal deprived of its skin. America's wealth of woodland is her principal guarantee of prosperity and productiveness.

Besides mitigating climatic extremes, forests attract rain showers. The wooded valley of the Rio de San Pedro, Peru, enjoys an annual rainfall of twenty inches; the adjoining desert of Atacama has had droughts lasting six years at a time. Tree plantations in upper Egypt increased the rainfall from two to fifteen inches. In Italy the rainfall has fallen off one-half; in some portions of Northern Africa, once the most fertile of lands, four-fifths. Forests also shelter insectivorous birds and absorb rain showers that would otherwise pour down from treeless slopes in destructive inundations.

Looking at the matter from a purely sanitary aspect, shade-trees are an unquestionable blessing. Leaves, besides generating oxygen, absorb all sorts of noxious gases, thus forming a natural antidote to the atmospheric repulsiveness and lethal menace to crowded cities. Savannah, Georgia, with its fourfold rows of stately trees, shading every principal street, enjoys more immunity from sunstroke than the sunblistered towns of the prairie States.

Laws should be enacted to save the forests, and laws should be enacted to compel every owner of land bordering on a public road to set rows of shade trees along the highway.

PERSONAL.

—Miss Anna Campbell is visiting relatives at Buck Run, Adams Co., O.

—Mr. Herbert Cady, of Chicago, after a visit here, left for home Tuesday.

—Miss Mary Morris, of Covington, Ky., is visiting relatives in this city.

—Miss Alta Dresel is home to spend the summer with her parents, Mr. and Mrs. Fred Dresel.

—Mr. and Mrs. George F. Brown and children are on a week's trip in Lewis and Fleming counties.

—Mr. H. E. Rosevear, State Secretary of the Y. M. C. A., was in Maysville a few hours Tuesday afternoon.

—Judge A. A. Wadsworth, who is on a trip to points in Oklahoma, is expected home the latter part of the week.

—Police Officer Thompson is at German town to-day attending the funeral of his brother-in-law, Mr. William Pepper.

—Vice President Harrahan, of the Illinois Central, has gone abroad to endeavor to get more tonnage for New Orleans.

—Mrs. Edith Cox, of Lexington, who has been visiting Mrs. Thomas Phister, Mrs. W. H. Boswell and other friends and relatives in this city, returns home to-day.

—Mr. S. L. and W. T. Jones, of Walnut Hills, Cincinnati, and Mrs. Harry Kissel, of Columbus, O., are spending the week with Mr. and Mrs. Harry Tolle.

—Mrs. Wm. Rosser and daughter Miss Lottie left yesterday over the C. and O. to spend a few weeks with relatives and friends in Virginia. They will visit Old Point Comfort and other places of interest in Virginia and West Virginia.

Corporal Roy Degman has returned from the Philippines, in bad health.

NEIGHBORHOOD NEWS.

Items of Interest Contributed by Our Country Correspondents.

WEDONIA, July 15th.—Several farmers have threshed their wheat. Some report a good yield, while others say it is not as good as last year.

Gill Cook, of Paris, visited relatives here the latter part of the week.

Mrs. Dr. Eckman and children, of Cincinnati, are the guests of her mother, Mrs. Marcie Clark. Miss Hattie Bullock is visiting her cousins, Mr. and Mrs. Ed. Bullock.

Miss Hattie Hord was in Cincinnati last week attending the Christian Endeavor convention.

Master Clifford Hord Goodman has been suffering from a badly sprained ankle the past week, but is better now.

Mrs. Wm. Winn has returned to her home at Lexington after a very pleasant visit of two weeks with her brother, Mr. Abner Hord, and other relatives of the county.

Leo Shelton, of Washington, Miss Annie Cobbett and the Misses Maggie and Rosie Quinn, of the North Fork, were guests of Mr. and Mrs. John Gantley last Sunday.

Misses Bettie D. and Mamie Cook returned home from Augusta where they went to celebrate the Fourth and visit Miss Taylor.

Born, last week, to Mr. and Mrs. Pat Tierney, a son.

Mr. and Mrs. G. H. Goodman visited friends in Maysville Saturday.

EAST LIMESTONE, July 16th.—Hay harvest is in progress this week.

Wheat threshing has commenced, several crops falling short of expectations, some crops turning out fifteen and sixteen bushels to the acre, while some are as low as eight, there being an abundance of straw in proportion to the wheat.

The hot northwest winds that struck this section the middle of last week, coupled with the present drought, are quite trying on the crops and gardens.

Mr. and Mrs. Wm. Laudenburger, of Dover, are guests of Mr. and Mrs. C. D. Wells, this week.

Miss Lula Stitt Mullin, an accomplished and popular young lady of Covington, is spending the heated term with her brother, Mr. John Stitt, and other relatives of the county.

Rev. Ellis and a number of friends were graciously entertained at dinner Sunday after church service by Mrs. T. W. Case, at her pleasant home near Orangeburg. The effect of the recent storm are plainly visible among the beautiful shade trees of her home.

The Stone Lick county road is in very bad condition—almost impassable in places, greatly retarding church attendance. Why are roads allowed to remain in such fearful condition? We see but one benefit derived therefrom, and that is to the blacksmith and carriage-maker.

Several from this neighborhood visited Miss Anna Meyers at her home near Tollesboro Sunday, perhaps for the last time in life, as her critical illness is nearing an end. Her death is hourly expected.

Miss Anna King, milliner, and one of Maysville's worthy and estimable ladies, was rusticating among friends here Sunday.

O. J. Myers, late of Farmer City, Ill., arrived home Sunday in response to a telegram announcing the serious illness of his sister. He was accompanied as far as Indianapolis by Howard Williams.

The ladies of the Stone Lick Church will give another ice cream supper Saturday evening, July 20th, at the Orangeburg school house. Proceeds for the benefit of the church.

The editor of the BULLETIN has our sincere sympathy in his late bereavement.

Mrs. Richard C. Williams and son, Charles R., visited her niece, Mrs. H. P. Edmunds, of Covington, to-day.

COTTAGEVILLE, July 14th.—Crops are needing rain.

Wheat and oats are about harvested and wheat is being stored in stack.

A good deal of sickness has been prevailing lately, due probably to the excessive hot weather, consequently our physician, Dr. Winder, has been kept pretty busy.

After a protracted illness Miss Sudie McNutt died at her home at this place on July 5th. The funeral services were held at her late home on the following day. The remains were interred in the Stone Lick church yard.

GERMANTOWN, July 15th.—The grim monster Death has again entered our town and removed a genial citizen, a loving husband and a kind father in the person of William Pepper. "Uncle Pete," as he was known, was a friend to every one and no one would be more missed, for his place in the postoffice was scarcely ever vacant. He died on his birthday, being seventy-three years of age. He leaves a wife, formerly Miss Anna Thompson, sister of R. P. and Ebe Thompson, of Maysville, and two children, Willie, in Kansas, and Miss Grace. Funeral takes place Wednesday. Interment in our cemetery.

Dr. Blackerby is visiting the doctor's sister near Berlin for a few days.

Miss Dora Renaker is visiting in Maysville.

Ruth Stiles and family, of Shannon, were in our midst Sunday.

Mrs. James Bell is in Flemington on a visit to her parents and friends.

The fete was quite a success, clearing over \$50 for the building fund. We hope the silver ware which was not returned may yet be, especially the spoon engraved "A. K."

Newt Erod, who has been in California the past three years, is visiting his old home.

Little Miss Douglas Gordon has returned home after a few weeks' visit here.

How to Treat Linoleum.

A point to remember in connection with cleaning is that when linoleum is used as a door covering scrubbing should rarely be indulged in. When dampness gets underneath the linoleum, the way has been found for its speedy rotting. If well swept, wiped over with a merely moist cloth to remove all stains and polished every once in awhile with turpentine and beeswax, good linoleum has no wear out to it, and furthermore, it looks well as long as it lasts. It is a good plan to wipe it over with milk and water or with linseed oil once every week or so.

How to Clean Canned Salmon.

Make a white sauce of one tablespoonful of butter, one tablespoonful of flour and one cup of milk. Season this with a little cayenne pepper. Break the contents of one can of salmon into small pieces and add them. Stir in one teaspoonful of lemon juice and a very little mace. Use chopped parsley for a garnish. This dish is improved when the mixture is put in shells, covered with buttered crumbs and browned in the oven.

Current advertising makes the point, which it establishes by a comparison of the figures, that for 10 per cent less money than it costs on billboards the same space may be bought in newspapers and delivered to a prospective customer instead of making him go out and wander around in the rain to read the ad.

BOY

There's no sense buying cheap stockings. There's no economy in lack of quality. We could sell poor stockings at half the price of good ones and make money—but lose friends.

We study hosiery. Select only from the best lines after careful tests from many stocks.

The best stockings for boys and girls. Exactly. The best. You know we're conservative—we wouldn't recommend a stocking this way if we weren't sure. We're very sure.

The Hercules, 25c. a pair, can't be matched.

WOMAN!

There is nothing you can want in Hosiery we can't supply. The very newest, most exquisite novelties in fancy hosiery, the finest, softest, plain hosiery.

Do you know we have the best lisle thread stocking in town—or out—for 25c?

Plain or drop stitch, double sole and heel, perfectly shaped, elastic, fast black.

D. HUNT & SON.

PROP'S OF BEE HIVE.

MISS GLENN PICKETT,

Youngest Daughter of the Late Prof. Pickett, Succumbs to an Attack of Typhoid Fever.

Miss Glenn Pickett, of Chicago, died Tuesday afternoon at 5:25 o'clock at the home of her uncle, Mr. T. L. Holton, near Tuckahoe. A month or so ago Miss Pickett came from Chicago to visit her relatives. Shortly after her arrival she was stricken with typhoid fever, the attack resulting in her death, after three weeks of suffering.

Miss Pickett was the youngest daughter of the late Prof. Joseph Desha Pickett, who was one of Mason's honored and highly respected sons, having served his State faithfully as Superintendent of Public Instruction. A sister, Miss Nellie, was at her side when the end came, and she is survived by two brothers.

The funeral will take place to-morrow morning at 9:30 o'clock (standard time) at Beasley Church, Elder W. W. Hall officiating, assisted by Elder Cartwright and Rev. Dr. Waller. Interment at Beasley.

River News.

The Queen City will lay up at some point above here.

Uranus and Stanley due down to-night and Bonanza up for Pomeroy.

The Keystone State turned back from Wheeling and is due down to-day.

A rise of two or three feet is coming out of the Kanawha. Some of the boats will get out with a shipment of coal.

Mr. Frank Haucke, whose illness has been mentioned, is somewhat improved.

berries and spring vegetables, Calhoun's.

The personal estate of the late Wm. Wormald was appraised at \$816.90.

Egg phosphate and all the popular soda water drinks at Ray's soda fountain.

Strictly pure Paris green that is guaranteed, for sale at Chenoweth's drug store.

Mrs. Anna Mulcahy, who has been very ill for several weeks, was in a critical condition this morning.

The Paris Lodge of Elks initiated a class of thirty-eight new members last night. Col. Craddock was one of them.

Mrs. Mary A. Darrow, who has been ill at the home of her daughter, Mrs. John C. Lovel, for some time, is slowly improving.

The Woman's Missionary Society of the First Baptist Church will meet at the Sunday school room at 4:30 this (Wednesday) afternoon. A full attendance is desired.

G. W. Rogers & Co., No. 127 Market street, Maysville, is the place to get pure, straight two-stamp "guaranteed" whiskies, brandies and gins, California wines &c. No spirits or rectified goods sold. Best \$2 whisky on earth.

The Y. M. C. A. boys were again victorious over the Red Men in the game of ball Tuesday, the score being 11 to 10 in their favor. It required ten innings to settle it. The game was not as clean and as fast as the one on the Fourth, but it was too hot for any sport of the kind. Next Tuesday afternoon the Y. M. C. A. and old Eckfords will cross bats.

MRS. AMANDA BAIRD.

Death Claims One of the City's Old and Highly Respected Citizens—The End Came Tuesday.

Mrs. Amanda Baird, whose serious illness was mentioned a few days ago, died Tuesday afternoon at 2:15 o'clock at her home, No. 313 Lexington street. She had been a sufferer for quite awhile from dysentery.

Mrs. Baird was seventy-eight years old, and her long life was spent in Mayville. Her maiden name was Bowling. She is survived by her husband, William, and leaves two sons and two daughters—John H., of this city, James D., of LaSalle, Ill., Mrs. Belle Judy, of Covington, and Mrs. Lida Woods, of this city. Mrs. Baird's husband has been making his home of late years with their son at LaSalle.

The funeral will take place to-morrow morning at 9 o'clock at residence, Rev. Dr. Porter officiating. Burial in Maysville Cemetery.

THE FINAL SUMMONS.

It Came to Mr. Ben Fristoe Shortly After 7 O'clock This Morning.

Mr. Ben Fristoe died at 7:15 o'clock this morning at the home of his parents, Mr. and Mrs. Taylor Fristoe, of Clifton.

He had been ill about two weeks with something like typhoid fever and had been rapidly declining the last day or so. Deceased was about twenty-one years of age.

The funeral arrangements have not been announced.

Mr. Henry Best, son of the late Dr. Best of Millersburg, and a recent graduate of Center College, has a position for next winter in Gallaudet College, Washington City.

Memphis, July 16.—A special from Cleveland, Miss., reports the killing of Lucius Reed, manager of the Pearman plantation near that place by S. H. Phillips, colored. Reed had ordered the negro to clean out his coup. This angered the latter and he shot Reed, killing him instantly. The murderer escaped to the woods, but is being pursued.

Mr. James Kirk, of Boyd County, came down Tuesday and left for home this morning with his son, Floyd, who has been in jail here several days for safe keeping. The latter is an epileptic, and disappeared from his home in Boyd two weeks ago. His relatives had been anxiously searching for him, and were apprised Sunday of his whereabouts by an item in one of the papers.

Trouble of a Minister.

To benefit others Rev. J. T. W. Vernon, of Hartwell, Ga., writes: "For a long time I had a running sore on my leg. I tried many remedies without benefit, until I used a bottle of Electric Bitters and a box of Bucklen's Arnica Salve, which cured me sound and well." Sores, eruptions, boils, eczema, tetter, salt rheum show impure blood. Thousands have found in Electric Bitters a grand blood purifier that absolutely cures these troubles. Satisfaction is guaranteed or money refunded by J. Jas. Wood & Son. Large bottles only 50c.

KENTUCKY CROPS.

Drouth Has Become Very Severe in Western Part of State—Wheat Not Up to Average.

[Weekly Bulletin of Weather Bureau.] Dry, hot weather prevailed during the week, with no rain at all in the State. The drouth has become very severe in the western section and in some portions of the central. In the eastern rain is needed in many places, but nothing is suffering from drouth. Water for stock is scarce in many places in the western section.

The weather was favorable for threshing wheat and good progress was made; the yield and quality are rather better than was expected, but it will fall somewhat short of an average crop.

Corn and tobacco are suffering very severely from drouth in the western section and in some localities in the central; in the eastern section these crops, while late, are doing very well. Worms are plentiful.

Oats are being cut; they are very good in the eastern, but only fair in the western and central sections.

The weather was very favorable for cutting hay and a large part of the crop has been saved in excellent condition. In the central section it is a light crop, but in the eastern and western sections it is very good.

Apples continue to fall and will be a very light crop. The drouth is causing peaches to drop in the western section, but they will be a fair crop generally.

Pastures and gardens are dried up in the western section and in some portions of the central, but are quite good in the eastern. Hemp is doing very well. Farm work is well up.

There are three cottages for rent at Ruggles Camp Ground. Apply to I. M. Lane.

Protect your stock from torture by flies by using "Fly-killer Oil," for sale at Chenoweth's drug store.

Elder J. W. Bullock will visit the church at Beasley next Sunday, (the third). Preaching at 11 o'clock, sun time.

Mr. Claude Tolle is in charge of Knox Company's big store in Cincinnati during the absence of the members of the firm in New York.

Positively the best cut yellow poplar shingles on earth. Samples at R. A. Carr's and Limestone Mill, Maysville. Address, D. G. Wilson, Orangeburg, Ky.

Samuel Shackleford has addressed a communication to Election Commissioners C. B. Poyntz and James C. Wright, stating that there will be a meeting of the Board July 29, to organize and to consider any business that may come before it.

A three-foot vein of coal was discovered within the city limits of Vanceburg Tuesday. The vein was exposed by the bank caving in on slate branch, caused by the recent heavy rains. A miner who has been in this country for several weeks made the discovery. He says the indications are that the coal will be found in almost unlimited quantity.

Gen. Joseph H. Lewis, Chairman of the Goebel Reward Commission, has called a meeting of the commission to be held Wednesday, July 25th. The meeting will be held in the office of Commonwealth's Attorney Franklin at noon on that day. No information of the matters to come before the commission is given in the notice to the members, but as all routine matters were disposed of at the last meeting, held several months ago, it is said that matters of much importance in connection with the prosecution of the alleged murder conspirators will be discussed.

Constable Dawson, who took the demented Edward J. Rectanus to Cincinnati Tuesday, had a time getting the fellow off his hands. Rectanus has a sister living in Newport, but the authorities there would not receive the man and would not allow Mr. Dawson to leave him there. Rectanus was then taken to Cincinnati, but the Queen City authorities also refused to receive him. His sister is employed in Cincinnati and Mr. Dawson finally turned her brother over to her. A letter has been received by Constable Dawson from a brother of Rectanus at Steger, Ill., who says the latter's trouble is probably caused by the recent death of one of their brothers.

It Dazzles The World.

No discovery in medicine has ever created one quarter of the excitement that has been caused by Dr. King's New Discovery for consumption. Its severest tests have been on hopeless victims of consumption, pneumonia, hemorrhage, pleurisy and bronchitis, thousands of whom it has restored to perfect health. For coughs, colds, asthma, croup, hay fever, hoarseness and whooping cough it is the quickest, surest cure in the world. It is sold by J. Jas. Wood & Son who guarantee satisfaction or refund money. Large bottles 50c and \$1.00. Trial bottles free.

JNO. T. MARTIN.

Get the Benefit of a Light-Weight Suit

By buying one now while the warm weather lasts and our line is complete. We are selling a neat stripe blue serge Coat and Pants Suit for \$7.50, or if you prefer a flannel we have some at the same price, but the ones that we are selling the most are going at \$10. They come in neat stripe flannels. We also have a swell line of shirts and neckwear which it would only be a pleasure for us to show.

J. WESLEY LEE.

Farm For Sale.

Saturday, July 27, 1901.

Upon the premises at 3 o'clock p. m. By order of the Mason County Court I will sell at public outcry to the highest and best bidder on a credit of one, two, and three years the farm of James W. Lee, consisting of 115 acres. Situated on Anderson Ferry turnpike, eight miles from Maysville, four miles from Dyer, two miles each from Tuckahoe and South Ripley. Two dwelling houses, stable, cow-house, ice-house, buggy-house, smoke-house, wine-house, kitchen, pantry, carpenter-shop, two tobacco barns and two corncribs. Good neighborhood. Convenient to schools and churches. Splendid producing land. Purchaser may pay cash, in which event no bonds will be required.

CLARENCE L. SALLEE.

Assignee of James W. Thomas.

Farm For Sale!

Thos. T. and Walter Worthington, executors of Thos. T. Worthington, deceased, offer for sale privately the farm of the late Thos. T. Worthington, situated on the Minerva and Tuckahoe pike, two miles from Tuckahoe and three miles from Minerva, containing 160 1/2 acres. Said farm has a good six room house, with kitchen, tenant house, two tobacco barns, corn crib and other buildings. The house is good fence, has everlasting water, about six acres of woodland, and is in a good state of cultivation, about 125 acres in grass. For price and terms apply to WALTER WORTHINGTON, Minerva, or THOS. T. WORTHINGTON, Fern Leaf. Mr. Jos. Low, who resides on the farm, will gladly show anyone over the premises.

THOS. T. WORTHINGTON.

WALTER WORTHINGTON.

Executors.
